SP Q2 Membership Meeting

General Motors Global Technical Center
Cole Engineering Center
29755 Louis Chevrolet Rd.
Warren, MI 48093

AGENDA

April 30, 2024 – Optional Pre-Meeting Activities

GM Global Technical Center, Double Wide Room: Cole Engineering Center 1BC-03 and 04

9:00AM – 10:00AM: GM Campus Tour

Prior to the meeting, attendees will have the opportunity to join a tour of GM's wildlife habitat activities around the Warren Technical Center campus. *Tour slots are limited and will be assigned on a first-come basis. (Tour Sold Out!)*

10:30AM – 12:00PM: SP Responsible Battery Work Group Meeting

Facilitator: Dawn New, Manager, EV Battery & Member Liaison, SP

SP's Responsible Battery Work Group (RBWG) provides a forum to promote information exchange on key challenges and opportunities related to end-of-life management of advanced EV batteries and to identify opportunities for strategic pre-competitive collaboration across the value chain to advance best practice in responsible management of such batteries in North America and beyond.

- Introduction to SP RBWG Objectives, Antitrust Guidelines – Dawn New, SP
- Updates to International Fire Codes & Implications for Lithium Batteries – Michael O'Brian, Fire Chief, Brighton Area Fire Department & CEO, Code Savvy Consultants
- Policy Trends on Battery EPR Regulations – Jeff Haltrecht, Executive, Call2Recycle
- Work Group Priorities Survey Results & Future Opportunities Discussion – Facilitated by SP

1:00PM – 2:30PM: SP Sustainable Materials Work Group Meeting

Co-Chairs: Mohamed Bouguettaya (BASF), Hayden Latham (Padnos)

Facilitator: Kellen Mahoney, Director, SP

SP's sustainable materials work group is working to move the automotive industry towards a circular materials economy. This facilitated working session will focus on key sustainable materials criteria, and their associated metrics and methods, that individual companies generally consider to inform their independent evaluation of the sustainability of a particular material.

- Introduction to Sustainable Materials Work Group & Past Guidelines – Kellen Mahoney, SP
- Summary of February Meeting Outcomes & Feedback on Draft Indicator List
- OEM & Supplier Perspectives – What information is needed on both sides of the table to meet commitments & drive progress?
- Breakout Table Discussions – In small groups, teams will review and discuss key sustainable material indicators and outline recommendations to promote consistency and clarity.
- Breakout Report Outs & Prioritization of Next Steps

AGENDA

April 30, 2024 – Optional Pre-Meeting Activities (continued)

GM Global Technical Center, Double Wide Room: Cole Engineering Center 1BC-03 and 04

3:00PM – 5:00PM: SP Sustainability Leadership Strategies Workshop - Sustainability RACI (Responsible, Accountable, Consulted, Informed)

Co-Chairs: Jill Kupcak (Bosch), Evita Vittorini (GM), Chris Rizzi (GM)
Facilitator: Linda Brewer, Manager Sustainability Strategies, SP

This facilitated workshop session will look in depth at those areas, inside and outside the organization, that may often be involved in and contribute to the sustainability leadership process, and whether they are fundamental to sustainability (responsible or accountable), must be involved for the success of the process (consulted), or are important supporters and communicators of the process of sustainability leadership (informed).

- Introduction to Work Group Objectives, Antitrust Guidelines – Linda Brewer, SP
- Overview of RACI Matrix and Process
- Breakout Tables Discussions: RACI Matrix for the Sustainability Processes
 - Data Collection and Reporting
 - Building the Business Case and Engaging the Executive Team
 - Operational Engagement – Risk and Opportunity
 - External Engagement
- Breakout Reports, Feedback and Next Steps

Networking Dinner (6:00 - 8:00PM)

Join us for an evening networking dinner at Andiamo Warren (7096 E 14 Mile Rd, Warren, MI 48092) following the meetings.

Fee applies, be sure to select the dinner add-on option during registration if you wish to attend

SP Q2 Membership Meeting

General Motors Global Technical Center
Cole Engineering Center
29755 Louis Chevrolet Rd.
Warren, MI 48093

AGENDA

May 2, 2024 – Optional Post-Meeting Workshop

GM Global Technical Center, Conference Room: Cole Engineering Center 2VC-01

SP Water Stewardship Workshop #1

At this half-day workshop, The Water Council will walk participants through the world of water stewardship, from the board room to the shop floor. What is water stewardship and why is it important to your business? What does good corporate water stewardship look like and how does that inform action at the facility level? Key organizations, tools and resources that inform water stewardship will also be covered. Participants will walk away from the workshop with a solid knowledge base to take back to their company to enhance and implement water stewardship program and actions.

Workshop capacity is limited to allow for interactive dialogue. The intended audience for this session is representatives of automotive manufacturers and tiered suppliers tasked with addressing water issues for their own company and/or supply chain.

- Facilitator: Matt Howard, VP Water Stewardship, The Water Council

AGENDA

Parking Instructions

The above map highlights access from **Gate 9 on Van Dyke Avenue** and provides directions to the designated parking area, the "**Manufacturing C Parking Lot**," where visitors can park between April 30th and May 2nd. Guests are free to park in any available spot in that parking lot. A daily shuttle service will be available from 7am to 6:30pm, running in a loop. The shuttle pickup location is indicated by a green star on the map, as well as the drop-off location at the **Cole Engineering Center**, where the event will take place.

Upon arrival, visitors are to enter through the main lobby and proceed to security to sign in and wait for a GM host.

We recommend that guests arrive at least 30 minutes in advance to allow ample time for parking, taking the shuttle, signing in at security, and other necessary procedures.
